WORK EXPERIENCE | OJT

Phoenix Publishing House **February 2026 – Present**
Part-Time Full-Stack Developer (June 2026 – Present) | Software Developer Intern (Feb – May 2026)

- Maintained and extended **ASMS 2.0**, an internal procurement and asset management system for **employees**, using **CodeIgniter 3**, **SQL Server**, and **jQuery**.
- Designed a **per-line resolution status system** for the Other Requests module: lookup table, foreign key, **stored procedure**, and controller endpoint.
- Built an **approval-to-inventory flow** that opens the correct inventory page and pre-fills the Add Item form, images included, from an approved request.
- Shipped **advanced filtering**, **status history**, **bulk actions**, image upload on status changes, and **Excel report export**.
- Extended the facilities schema with five item attributes and updated **four stored procedures** with their models and controllers.
- Fixed a **double-insert bug** and **cart checkout quantities**, and added a **per-company limit** on active requests.
- Developing **PGC**, the **customer-facing** counterpart of ASMS, with **requests, item catalog, cart, stock inventory, reports,** and **user access** modules, plus its **mobile UI**.

PROJECT EXPERIENCE

PetVet Cycle Animal and Grooming Center (Solo Project) **Jul 2026 – Oct 2026**

- Built a full-stack veterinary clinic system with a **staff app** and **client portal** using **React**, **TanStack Query**, **Zustand**, **Express.js**, and **PostgreSQL**, deployed on **Vercel** and **Render**.
- Designed a database-driven **Role-Based Access Control (RBAC)** engine: every route, menu item, and API endpoint is gated by a **permission matrix** admins can change at runtime.
- Built **online booking with GCash deposits**, **medical records**, **point-of-sale checkout**, **inventory with batch and expiry tracking**, and **sales analytics**.
- Secured with **server-side sessions**, **CSRF protection**, **rate limiting**, **sign-in OTP**, and **Google OAuth**; installable on phones as a **mobile app**.

Fitworx Gym Facility Management System (Team Project) **Jul 2025 – Aug 2026**

- Collaborated with a **4-member team** on a gym system with **member registration**, **class reservations**, **attendance logbook**, **cart and payment processing**, and **stock management**.
- Built with **JavaScript**, **Tailwind CSS**, **Node.js**, **Express.js**, **MySQL**, and **Firebase**.

Bryzahcov Dental System (Mini Capstone) **May 2025**

- Built a dental clinic desktop app in **C# WinForms** and **SQL Server** with **patient records**, a visual **appointment scheduler**, walk-in tracking, and **billing**.

Travel Ease (Solo Project) **Jun 2024 – May 2025**

- Built a travel management desktop app in **C# WinForms** and **SQL Server** for **traveler IDs**, **fund top-ups**, **itineraries**, and **travel history**.

EDUCATION

STI College Fairview **2022 – July 2026**
Course/Program

- Bachelor of Science in Information Technology (BSIT)

AI-ASSISTED DEVELOPMENT TOOLS

- Claude, Claude Code, ChatGPT

TECHNICAL SKILLS

- **Technical Skills:** JavaScript, TypeScript, React, Node.js, Express.js, PHP, CodeIgniter, C#, PostgreSQL, SQL Server
